

# Technical Support Document 3

2nd Edition 2021

## Monitoring Landscape Change 2003 - 2021

## Introduction

This Technical Support Document is intended to support Part 5 of 'The Landscape Character of Derbyshire' publication. Part 5 aims to underpin the objectives of the European Landscape Convention (ELC) by monitoring landscape change and helping involve people in understanding this change (Articles 5, 6A-D).

At the national level, attempts to monitor landscape change have been delivered through initiatives such as Countryside Quality Counts (CQC), which looks at landscape change in the context of National Character Areas. Using various national datasets this review monitors landscape change in the context of four potential outcomes:

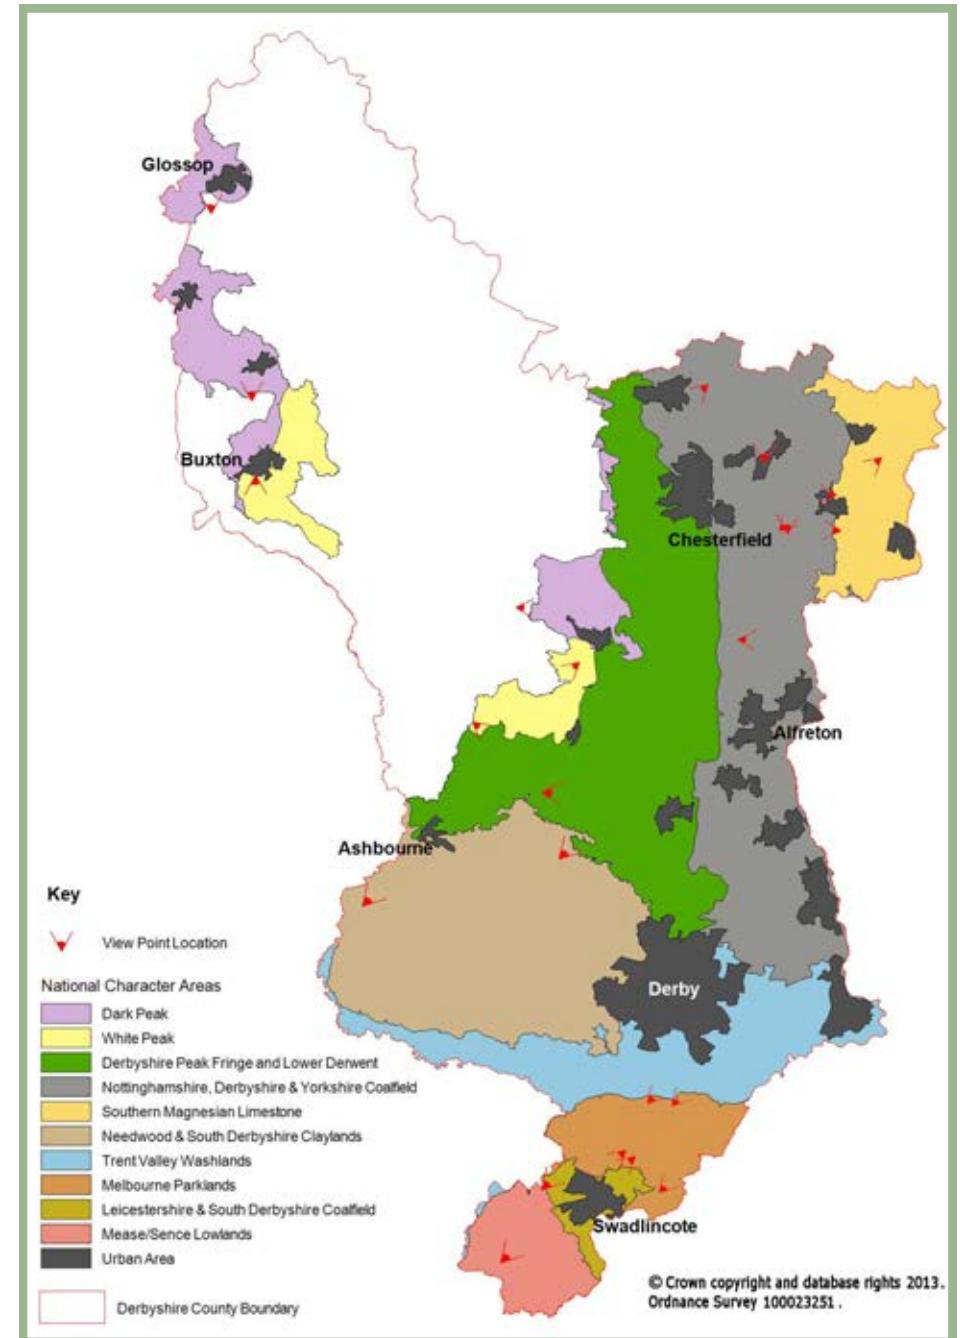

- **Maintained** – stable and consistent with character/vision
- **Enhancing** – changing and consistent with character/vision
- **Neglected** – stable but inconsistent with character/vision
- **Diverging** – changing but inconsistent with character/vision

The CQC project recommends that landscape change should be monitored on a 5 year cycle. The scale of the CQC approach is not particularly relevant at the county scale, so in this context it is proposed to monitor landscape change in Derbyshire through the use of fixed point photography on a 5 yearly cycle.

## Method

The fixed point photography has identified 24 viewpoints across the county. Some of these viewpoints are the same as were chosen in the first edition of 'The Landscape Character of Derbyshire' document and, as such, allow for the monitoring of landscape change since it was published. Others are new locations often taken from elevated vantage points that allow for broad panoramic views over large areas. These views may reflect a number of landscape character types and are often selected in anticipation of known pressures for change.

Photos used in the original publication were taken during 2003 with the subsequent photos taken in 2016 and 2021. The most recent photos have been taken during the spring and summer of 2021. Where a photograph is taken from the position of one of the original photographs, the latest photo is shown side by side to demonstrate the changes that have taken place in the intervening period. Additional photos taken between the first and latest images are also included at each location for comparison and completeness. It is proposed that the exercise will be repeated every 5 years to monitor landscape change to provide feedback for the planning process and help inform future training requirements.

# HADFIELD & GLOSSOP FROM CHARLESWORTH ROAD (MONKS ROAD)

2011

2021

**DARK PEAK**

**Settled Valley Pastures**

A settled, pastoral farming landscape on gently sloping lower valley sides, dissected by stream valleys. Dense watercourse trees, scattered boundary trees and tree groups around settlement contribute to a strongly wooded character.

A panoramic view of Hadfield, Simmondley and Glossop from Charlesworth Road near Coombes Edge.

Direction: North

Grid Ref: 4022 3923

**Landscape Character:** This is a view of the Settled Valley Pastures in the Dark Peak taken from an elevated vantage point within the Peak District National Park. This is a well settled, pastoral landscape with a well wooded character.

**Baseline landmarks and visual features:**

Foreground – Simmondley (left centre) and heather moorland and birch scrub on Herod Edge (far right).

Middle distance – Gamesley estate set within woodland (far left), viaduct at Dinting Vale, Mouselow Quarry (middle) and western edge of Glossop (right).

Background – distant views towards Hollingworth, Hadfield and Tintwistle with Arnfield reservoir just visible (centre left).

**Change to view:** 2011 to 2021 - there has been some restoration to the far slopes of Mouselow Quarry. The new Glossopdale School can be seen beyond the viaduct (now painted green), new allotments to the right and some modest infill development along Dinting Road. There is little discernible difference so the overall character of the landscape in the view is assessed as Maintained.

# HADFIELD & GLOSSOP FROM CHARLESWORTH ROAD (MONKS ROAD)

# CHAPEL-EN-LE-FRITH FROM COWLOW LANE, WEST OF DOVE HOLES

2011

2021

**DARK PEAK**

**Settled Valley Pastures**

A settled, pastoral farming landscape on gently sloping lower valley sides, dissected by stream valleys. Dense watercourse trees, scattered boundary trees and tree groups around settlement contribute to a strongly wooded character.

A panoramic view from near Bank Hall Farm, Cowlow Lane looking over Chapel-en-le-Frith.

Direction: North

Grid Ref: 4051 3786

**Landscape Character:** An elevated vantage point from the edge of the Moorland Fringe (Dark Peak) looking over the Settled Valley Pastures near Chapel-en-le-Frith towards the distant hills of the Peak District National Park.

**Baseline landmarks and visual features:**

Foreground – rough grazing associated with the Moorland Fringe.

Middle distance – the settlement of Chapel dominates the centre of the view with the new secondary school visible immediately left of the railway line. Directly left of the school is the area known as Lower Crossings.

Background – the distant hills of the Peak District form the skyline with Chinley Churn being the hill summit to the left of the view.

**Change to view:** 2011 to 2021 - there has been some residential expansion to the left and adjacent to the railway line in the middle of the view. This change does not impact on the settlement pattern so overall the character of the landscape in the view is assessed as Maintained.

# CHAPEL-EN-LE-FRITH FROM COWLOW LANE WEST OF DOVE HOLES

## Additional Photographs

# DARLEY DALE AND THE DERWENT VALLEY FROM STANTON MOOR

2011

2021

**DARK PEAK**

**Riverside Meadows**

Gentle valley floors contain upland rivers, lined with dense trees. Hedgerows enclose small, sub-regular fields in a pastoral landscape, interrupted by the occasional historic mill.

A panoramic view of the Derwent Valley at Darley Dale towards Matlock from Stanton Moor.

Direction: East

Grid Ref: 4250 3629

**Landscape Character:** An elevated vantage point from Stanton Moor looking over the Derwent Valley comprising the Settled Valley Pastures, Riverside Meadows and more distant Enclosed Moorland. This view shows the contrast between the Riverside Meadows and the Settled Valley Pastures.

**Baseline landmarks and visual features:**

Foreground – tops of trees flanking the steep slopes rising to Stanton Moor and the extensive poplar plantations around the Enthovens factory (far right). Middle distance – the main residential area of Darley Dale centred on Broadwalk and the Parkway (left of centre) with the open floodplain in front and interlocking woodland to the rear. The edge of Matlock is visible along the valley in the distance (far right). Background – the plantation woodlands on Darley and Matlock moors form the skyline.

**Change to view:** 2011 to 2021 - there has been some modest development to the left of the view (industrial to residential) and along the valley towards Matlock including the extension of the Old Road Industrial Estate (centre right). Whilst locally these developments have had some impact overall the view remains largely unchanged and the overall character of the landscape in the view is assessed as Maintained.

# HARPUR HILL BUSINESS PARK FROM SOLOMON'S TEMPLE

2011

2021

## WHITE PEAK

### Upland Limestone Pastures

An undulating highland landscape of rough grazing and stock rearing, with prominent limestone outcrops and open, expansive views.

A panoramic view of Harpur Hill Business Park from Solomon's Temple.

Direction: South

Grid Ref: 4054 3717

**Landscape Character:** An elevated vantage point of the Upland Limestone Pastures in the White Peak; undulating upland with steep slopes, bare rock outcrops, rough grazing and essentially treeless. The landscape character is now impacted upon by quarrying and the Harpur Hill Business Park.

#### Baseline landmarks and visual features:

**Foreground** – rough grazing and rocky outcrops of Grin Low.

**Middle distance** – dominated by the Harpur Hill Business Park including the Health and Safety Laboratory.

**Background** – The skyline is formed by Hoffman Quarry (now disused – left), Staker Hill, Chrome Hill (pointed hill summit in the centre) and the distant hills of the South West Peak (far right).

**Change to view:** 2011 to 2021 - there has been expansion of the business park (left and centre of view) and recent tree planting to the right of the HSE building has become established. These changes are inconsistent with the character of the Upland Limestone Pastures so overall the view is assessed as Diverging.

# HARPUR HILL BUSINESS PARK FROM SOLOMON'S TEMPLE

# VIA GELIA WOODLANDS FROM MASSON HILL

2013

2021

**WHITE PEAK**

**Limestone Dales**

**Narrow, deeply incised river valleys with steep slopes and extensive amounts of exposed rock. There are blocks of ancient woodland, areas of scrub and rough grassland grazed by sheep.**

A single frame view taken on footpath off Ember Lane looking towards Griffe Grange

Direction: South-West Grid Ref: 4283 3582

**Landscape Character:** An elevated view from Masson Hill looking across the wooded Limestone Dales of the Via Gellia to the Plateau Pastures beyond.

**Baseline landmarks and visual features:**

Foreground – small pastoral fields with some medieval lynchets bounded by dry-stone walls with uncharacteristically dense mature boundary trees.

Middle distance – heavily wooded limestone dale including large areas of ancient woodland

Background – Pastoral fields of the plateau pastures at Middleton Moor to the left and Harboro' Rocks to the right.

**Change to view:** 2013 to 2021 - three additional wind turbines are evident on the skyline adding to the four turbines erected at Carsington Pastures (although the Carsington turbines are not evident on the 2013 photo). In all other respects there is no discernible difference in the view so overall the character of the landscape in the view is assessed as Maintained.

# VIA GELIA WOODLANDS FROM MASSON HILL

## Additional Photographs

# ALPORT HEIGHTS FROM BULLHILL FARM, SOUTH OF KIRK IRETON

2011

2021

**DERBYSHIRE PEAK FRINGE AND LOWER DERWENT**

**Wooded Slopes and Valleys**

This is a landscape of small pastoral fields on undulating, rising ground. Woodland on steeper slopes, along with hedgerow and watercourse trees contribute to a strongly wooded character.

A single frame view taken from Bullhill (farm) to the south of Kirk Ireton looking towards Alport Heights.

Direction: East

Grid Ref: 4271 3493

**Landscape Character:** This is predominantly a view of the Wooded Slopes and Valleys in the Peak Fringe; undulating topography, small pastoral fields and well wooded. The lower lying land in the middle distance shows the Wooded Farmlands with the hill summit at Alport Heights being in the Gritstone Moors & Heath.

**Baseline landmarks and visual features:**

Foreground – pastoral fields near Bullhill Farm.

Middle distance – scattered farmsteads that comprise the community of Ashleyhay.

Background – telecommunication masts at Alport Heights form the skyline.

**Change to view:** 2011 to 2021 - minor variation in colour of grassland due to slight difference in timing of photos but otherwise no discernible difference in the view. Overall the character of the landscapes in this view is assessed as

Maintained.

# ALPORT HEIGHTS FROM BULLHILL FARM, SOUTH OF KIRK IRETON

## Additional Photographs

# LOOKING SOUTH-EAST FROM MILL LANE BETWEEN BRADBOURNE AND BRASSINGTON

2011

2021

**DERBYSHIRE PEAK FRINGE AND LOWER DERWENT**

**Settled Farmlands**

**A gently undulating to rolling pastoral landscape over mixed geology, characterised by densely scattered hedgerow trees and along watercourses. Villages and sparsely scattered farmsteads give the impression of a well-settled landscape.**

A panoramic view from Mill Lane between Bradbourne and Brassington.

Direction: South-East

Grid Ref: 4218 3538

**Landscape Character:** An elevated vantage point on the edge of the Limestone Slopes in the White Peak looking across the Settled Farmlands within the Peak Fringe. This is a typical view of the gently undulating landform, small to medium fields enclosed by hedgerows and occasional walls, permanent pasture with extensive ridge and furrow, and densely scattered hedgerow trees.

**Baseline landmarks and visual features:**

Foreground – pastoral fields with extensive ridge and furrow immediately adjacent to Mill Lane, near Bradbourne.

Middle distance – small pastoral fields with dense hedgerow trees on minor ridgeline to the west of Carsington Reservoir with the open rising ground of Carsington Pastures to the far left.

Background – glimpsed views beyond ridgeline to more elevated parts of Peak Fringe.

**Change to view:** 2011 to 2021 - there is some deterioration of the dry stone wall in the foreground, some agricultural neglect and variation in the colour of the grassland due to the slight difference in the timing of the photos but otherwise there is little change in the view. Overall the character of the landscape in this view is assessed as Maintained.

# LOOKING SOUTH-EAST FROM MILL LANE BETWEEN BRADBOURNE AND BRASSINGTON

# DRONFIELD VALLEY FROM APPERKNOWLE

2011

2021

<p><b>NOTTINGHAMSHIRE, DERBYSHIRE &amp; YORKSHIRE COALFIELD</b></p>	<p><b>Wooded Hills and Valleys</b></p>	<p>A broadly undulating upland with a strongly wooded character, defined by woodland, mixed farming and sparsely scattered settlement.</p>
---	--	--

<p>Panoramic view from an elevated vantage point on Summerley Road, Apperknowle</p>	<p>Direction: South-West</p>	<p>Grid Ref: 4379 3785</p>
---	------------------------------	----------------------------

**Landscape Character:** A typical view of the Wooded Slopes and Valleys in the Derbyshire Coalfield; mixed farming, hedgerow boundaries, extensive woodland and tree cover, and scattered hamlets and farmsteads

**Baseline landmarks and visual features:**  
Foreground - properties along Summerley Lower Road.  
Middle distance - Ramshaw Wood wrapping around plateau edge (left), Drone Valley extending away towards Chesterfield (left centre), the Hallowes residential area of Dronfield (right).  
Background - Northern suburbs of Chesterfield (Sheepbridge/Dunston) and the hills of the Peak Fringe on the far horizon.

**Change to view:** 2011 to 2021 - other than the temporary taped fencing in the foreground, the developing woodland to the rear of the white property and the variation in grassland colour, the view remains largely unchanged. Overall the character of the landscape in this view is assessed as Maintained.

# DRONFIELD VALLEY FROM APPERKNOWLE

## Additional Photographs

# FORMER STAVELEY WORKS FROM MIDDLECROFT, STAVELEY

2011

2021

**NOTTINGHAMSHIRE,  
DERBYSHIRE & YORKSHIRE  
COALFIELD**

**Estate  
Farmlands**

A broad, gently undulating landscape characterised by mixed farming and sparse tree cover.

A panoramic view towards the former Staveley Works site, Hall Lane landfill site and Barrow Hill.

Direction: North

Grid Ref: 4424 3741

**Landscape Character:** An elevated vantage point (St John's Street, Middlecroft) within the Estate Farmlands (Derbyshire Coalfield) looking across the Riverside Meadow of the River Rother to Estate Farmlands beyond. The distant hills to the left comprise the Wooded Hills and Valleys.

**Baseline landmarks and visual features:**

Foreground – arable fields of the Estate Farmlands.

Middle distance – the floodplain of the River Rother with the river defined by the linear tree belt immediately behind the pylons. Beyond the river is the scrubby ground of the former Staveley Ironworks with the current chemical works evident to the right. The settlement of Barrow Hill is visible to the left centre with the gently domed landform of the Hall Lane landfill site to the right.

Background – the skyline is formed by the rising ground and extensive woodlands of the Wooded Hills and Valleys.

**Change to view:** 2011 to 2021 - there has been significant woodland regeneration on the Staveley Works and Hall Lane Tip sites and further demolition of the Staveley Chemical Works (right). These changes deliver some improvements so overall the character of the landscape in the view is assessed as Maintained/Enhancing.

# FORMER STAVELEY WORKS FROM MIDDLECROFT, STAVELEY

# LOOKING NORTH FROM SUTTON SCARSDALE HALL

2011

2021

**NOTTINGHAMSHIRE,  
DERBYSHIRE & YORKSHIRE  
COALFIELD**

**Estate  
Farmlands**

A broad, gently undulating landscape characterised by mixed farming and sparse tree cover.

A panoramic view from Sutton Scarsdale Hall.

Direction: North

Grid Ref: 4442 3689

**Landscape Character:** A typical view of the Estate Farmlands in the Derbyshire Coalfield; broadly undulating topography, mixed farming dominated by arable, hedgerows, localised woodlands and occasional trees, an open landscape with long distance views.

**Baseline landmarks and visual features:**

Foreground – large arable field within the former park boundary to Sutton Scarsdale Hall.

Middle distance – dominated by the newly restored landscape of the former Arkwright opencast coal site. The degraded land surrounded by trees (left centre) is the location of the former site office/compound to the opencast coal site.

Background – distant views beyond Arkwright Town and Duckmanton towards the northern coalfield and the rising ground of the Southern Magnesian Limestone plateau (far right).

**Change to view:** 2011 to 2021 - three solar farms are now evident (left, centre and right) and a single large wind turbine. A new waste recycling facility is visible on the former Arkwright tip site. Woodlands and hedgerows planted on the former Arkwright Surface Mining site continue to develop and mature. Despite recent developments the overall character of the landscape in the view is assessed as Maintained.

# LOOKING NORTH FROM SUTTON SCARSDALE HALL

## Additional Photographs

# LOOKING WEST FROM PALTERTON

2011

2021

**NOTTINGHAMSHIRE,  
DERBYSHIRE & YORKSHIRE  
COALFIELD**

**Estate  
Farmlands**

A broad, gently undulating landscape characterised by mixed farming and sparse tree cover.

A panoramic view across the northern Derbyshire Coalfield from Palterton.

Direction: West

Grid Ref: 4474 3684

**Landscape Character:** An elevated vantage from the western edge of the Limestone Farmlands in the Southern Magnesian Limestone looking across the Wooded Farmlands, Riverside Meadows to the Estate Farmlands of the Derbyshire Coalfield.

**Baseline landmarks and visual features:**

**Foreground** – lower slopes of the Wooded Farmlands dominated by arable cropping. **Middle distance** – the tree-lined corridor of the Riverside Meadows defining the route of the River Doe Lea located immediately at the foot of the scarp slope. Deepdale Farm is in the centre beyond the river corridor and Sutton Scarsdale Hall is located further beyond at the edge of woodland, both within the Estate Farmlands. **Background** – the skyline is defined by the distant hills of the Peak Fringe.

**Change to view:** 2011 to 2021 - other than some solar farm development in the middle distance to the right of Sutton Scarsdale Hall and variation in land use, there is no discernible difference in the view. Overall character of the landscape in the view is assessed as Maintained.

# LOOKING WEST FROM PALTERTON

## Additional Photographs

# MARKHAM VALE FROM SHUTTLEWOOD ROAD, BOLSOVER

2011

2021

**NOTTINGHAMSHIRE,  
DERBYSHIRE & YORKSHIRE  
COALFIELD**

**Wooded  
Farmlands**

A small scale undulating landscape rising to the magnesian limestone plateau. Characteristically well-wooded, sparsely settled and dominated by mixed farming.

A panoramic view from an elevated position towards Markham Vale and Duckmanton.

Direction: West

Grid Ref: 4471 3710

**Landscape Character:** An elevated vantage point in the Wooded Farmlands (Derbyshire Coalfield) looking across the wider Estate Farmlands. This is not a typical view of either with much of the foreground and middle distance dominated by degraded or recently restored land associated with the former Coalite works, and Bolsover and Markham Collieries.

**Baseline landmarks and visual features:**

Foreground – beyond the rooftops of Bolsover is the recently planted former Bolsover North colliery tip with Woodhouse Lane running over the top. Middle distance – former Coalite Works to the left of the Bolsover north tip with the wooded former Markham Colliery tip immediately to the right. Background – long distance views towards Brimington and Staveley with the hills of the Peak District forming the far horizon.

**Change to view:** 2011 to 2021 - new industrial development at Markham Vale dominates the middle distance with the new wind turbine and solar farm beyond. The restored Bolsover Colliery Tip continues to mature creating a large woodland block. Although the new woodlands help to assimilate new development, overall the impact of the Markham Vale Growth Zone is significant and inconsistent with the vision for the respective LCTs so overall the character of the landscape in the view is assessed as Diverging.

# MARKHAM VALE FROM SHUTTLEWOOD ROAD, BOLSOVER

# LOOKING NORTH-EAST FROM M1 NEAR SUTTON SCARSDALE HALL

2011

2021

**NOTTINGHAMSHIRE,  
DERBYSHIRE & YORKSHIRE  
COALFIELD**

**Wooded  
Farmlands**

A small scale undulating landscape rising to the magnesian limestone plateau. Characteristically well-wooded, sparsely settled and dominated by mixed farming.

A panoramic view looking generally east from the M1 near Sutton Scarsdale Hall.

Direction: North-East

Grid Ref: 4452 3690

**Landscape Character:** A vantage point from Carr Lane near the M1 motorway, from the footpath to Lodge Farm, within the Derbyshire Coalfield Estate Farmlands looking to monitor change to the Wooded Farmland on the scarp slope. The foot of the scarp slope defines a narrow corridor for the River Doe Lea which is part of the Riverside Meadows.

**Baseline landmarks and Visual Features:**

Foreground – arable fields immediately east and north-east of Sutton Scarsdale Hall.

Middle Distance - linear tree belt associated with River Doe Lea and Stockley Trail.

Background – the scarp slope immediately south of Bolsover and west of Palterton.

**Change to view:** 2011 to 2021 - there has been some modest tree and hedgerow loss on the slopes below Palterton and there is minor variation in agricultural land use. Overall the character of the landscape in the view is assessed as Maintained.

# MORTON TIP

2003

2021

**NOTTINGHAMSHIRE,  
DERBYSHIRE & YORKSHIRE  
COALFIELD**

**Coalfield Village  
Farmlands**

A broad industrial landscape characterised by villages, dairy farming and small woodlands.

A single frame view from the top of Morton Tip looking towards Tibshelf

Direction: East

Grid Ref: 4412 3605

**Landscape Character:** A view across the Coalfield Village Farmlands within the Derbyshire Coalfield. The village of Tibshelf sits on the ridgeline with remnant medieval strip fields running down the slope, finishing at a linear tree belt. The predominant land-use is dairy farming with some fields being used for arable crops.

**Baseline landmarks and Visual Features:**

Foreground – Pastoral fields partially screened by trees growing on the lower slopes of Morton Tip.

Middle Distance - Pastoral fields with localised arable crops bounded by hedges containing mature hedgerow trees.

Remnant medieval strip fields lead up the slope towards the ridgeline.

Background – Tibshelf village dominates the ridgeline.

**Change to view:** 2003 to 2021 - Some arable conversion in middle distance and naturally regenerating tree growth on the lower slopes of Morton Tip is starting to mask the view. Overall the character of the landscape is assessed as

Maintained.

Additional Photographs

# LOOKING SOUTH-WEST ALONG FOOTPATH FROM ELMTON TOWARDS ELMTON LODGE

2003

2021

**SOUTHERN  
MAGNESIAN  
LIMESTONE**

**Limestone  
Farmlands**

**A gently rolling, agricultural landscape, characterised by large scale open farmland, estate woodlands, and limestone villages.**

A single frame view taken on footpath off Oxpasture Lane looking towards Elmton Lodge plantation.

Direction: South-West Grid Ref: 4504 3731

**Landscape Character:** A typical view of the Limestone Farmlands in the Southern Magnesian Limestone of the gently rolling agricultural plateau punctuated by a large plantation woodland.

**Baseline landmarks and Visual Features:**

Foreground – gently rolling arable fields with hedgerows but distinct lack of hedgerow trees allied to the gentle relief creating an open landscape.

Middle distance - open arable landscape.

Background – wooded skyline.

**Change to view:** 2003 to 2021—hedgerows appear slightly taller and more managed but otherwise no discernible difference. Overall the character of the landscape is assessed as Maintained.

## NEEDWOOD AND SOUTH DERBYSHIRE CLAYLANDS

### Settled Plateau Farmlands

A medium scale pastoral landscape on gently rolling upland plateaux. A sense of elevation with extensive views filtered by scattered hedgerow trees and small woodlands.

A single frame view from Green Lane near Roston Common looking towards Ashton Close Farm.

Direction: North-East

Grid Ref: 4140 3417

**Landscape Character:** A typical view of the Settled Plateau Farmlands in the Needwood and South Derbyshire Claylands; small and medium fields enclosed by hedgerows, scattered boundary trees, sense of elevation with views over lower ground.

#### Baseline landmarks and visual features:

**Foreground** – pastoral fields adjacent to Green Lane (B5033).

**Middle distance** – Ashton Close Farm set within predominantly pastoral fields with scattered hedgerow trees.

**Background** – distant hills to the north-east.

**Change to view:** 2003 to 2021 – minor variations in crop rotation between fields and a new hedgerow planted to the left of the farm otherwise no significant difference. Overall the character of the landscape is assessed as Maintained.

## NEEDWOOD AND SOUTH DERBYSHIRE CLAYLANDS

### Sandstone Slopes and Heaths

A landscape of moderate to steep sandstone slopes with prominent rounded undulations and hillocks forming the upper slopes. A pastoral landscape, with small woodlands and scattered hedgerow trees.

A single frame view from Mugginton Lane end taken adjacent to Fairview, north of The Clives.

Direction: North-East

Grid Ref: 4283 3451

**Landscape Character:** A typical view of the Sandstone Slopes and Heaths in the Needwood and South Derbyshire Claylands; prominent rounded undulations and hillocks, predominantly pastoral land use, with scattered hedgerow trees and occasional small woodlands and sparsely settled farmsteads and estate cottages.

#### Baseline landmarks and Visual Features:

**Foreground** – dominant rounded undulations and pastoral fields.

**Middle Distance** – Hollinghurst Farm and Spout Carr Woodland.

**Background** – the Cross o' th' hands ridgeline beyond to Alport heights and Shottle ridge line.

**Change to view:** 2003 to 2021. No change. Vegetation in middle distance continues to mature but overall the character of the landscape in this view is assessed as Maintained.

## TRENT VALLEY WASHLANDS

### Riverside Meadows

Broad, flat flood plains, containing meandering rivers and streams with scattered trees along riverbanks. A pastoral landscape of large, hedged fields with trees scattered along boundaries.

A single frame view taken from a public footpath near Ingleby

Direction: North-East Grid Ref: 4346 3271

**Landscape Character:** An elevated vantage point from a footpath within the Sandstone Slopes & Heaths (Melbourne Parklands) looking across the Riverside Meadows in the Trent Valley; a broad flat floodplain, pastoral land-use, large fields enclosed by thorn hedgerows with hedgerow trees, scattered watercourse trees, and a lack of built development.

**Baseline landmarks and visual features:**

Foreground – River Trent and immediate floodplain.

Middle distance – pastoral fields with scattered hedgerow trees to the north of the River Trent.

Background – rising ground to the west of Chellaston

**Change to view:** 2003 to 2021 - new planting associated with Swarkstone Quarry continues to mature making the river less visible. Floodplain in foreground becoming incorporated into residential curtilage (occurring predominantly in last 5 years). Overall the character of the landscape in this view is assessed as Maintained/Diverging. **NOTE:** immediately left of this view (north-west), Swarkstone Quarry has now extended to the river having significant localised impacts on the established character due to resultant large waterbodies. Here the character of the landscape in this wider view is assessed as Diverging.

SOUTH DERBYSHIRE  
COALFIELD**

**Coalfield Village  
Farmlands**

**An undulating, industrialised mixed farming landscape with former mining settlement, punctuated by woodland, scattered hedgerow and watercourse trees.**

A panoramic view of Upper and Lower Midway from Gravelpit Hill north of Hartshorne.

Direction: South-West    Grid Ref: 4325 3221

**Landscape Character:** An elevated vantage point within the Melbourne Parklands; Estate Farmlands located across the Coalfield Village Farmlands in the south Derbyshire Coalfield. This is a typical view of the Coalfield Village Farmlands with its broad undulating landform, mixed farming, hedgerow boundaries, scattered hedgerow and watercourse trees, occasional small woodlands, and expanded settlements.

**Baseline landmarks and visual features:**

Foreground – existing woodland on the lower slopes of Gravelpit Hill in the Estate Farmlands.

Middle distance – Dunsmoor Farm is located in the middle of the view surrounded by traditional mixed farming.

Background – the Lower and Upper Midway areas of Swadlincote form the skyline.

**Change to view:** 2011 to 2021 - view becoming blocked by National Forest planting in the foreground. There has been some infill development to left of view but overall the character of the landscape in this view is assessed as Maintained.

**LEICESTERSHIRE &  
SOUTH DERBYSHIRE  
COALFILELD**

**Coalfield Village  
Farmlands**

**An undulating, industrialised mixed farming landscape with former mining settlement, punctuated by woodland, scattered hedgerow and watercourse trees.**

A single frame view taken from a footpath to the east of Stapenhill looking towards Newhall.

Direction: North-East Grid Ref: 4271 3211

**Landscape Character:** A typical view of the Coalfield Village Farmlands in the South Derbyshire Coalfield; mixed farming, hedgerow boundaries, occasional woodland and locally dense trees along streamlines, ribbon development and widespread legacy of coal extraction.

**Baseline landmarks and visual features:**

**Foreground** – pastoral fields enclosed by simple thorn hedgerows

**Middle distance** – tree-lined watercourse and disused railway line and the recently completed Bretby landfill site.

**Background** – the skyline is formed by the settlement of Newhall, particularly houses along Sunnyside.

**Change to view:** 2003 to 2021 – Bretby Tip in the middle distance is now fully restored and has begun to read as part of the pastoral landscape. Hedgerows and recent woodland planting continue to mature so overall the character of the landscape in this view is assessed as Enhancing.

**MEASE / SENCE  
LOWLANDS**

**Village Estate  
Farmlands**

This is a well-ordered, gently rolling agricultural landscape punctuated by discrete villages, scattered estate farmsteads and country houses. There are small game coverts and dense lines of trees along watercourses.

A single frame view from a footpath to the north-east of Coton-in-the-Elms looking towards Rosliston.

Direction: North-East

Grid Ref: 4240 3157

**Landscape Character:** This is a typical view of the Village Estate Farmlands in the Mease/Sence Lowlands; gently rolling mixed farming punctuated by discrete villages, small plantation woodlands, and scattered hedgerow and watercourse trees.

**Baseline landmarks and visual features:**

Foreground – a mixed farming landscape dominated by arable land.

Middle distance – arable fields, hedgerows, field trees and tree belts south-west of Rosliston.

Background – the village of Rosliston and the steeple to St Mary's Church.

**Change to view:** 2003 to 2021 – the predominant land-use continues to be arable as noted in the foreground field but beyond the hedgerow boundary there is a notable change to the character of this view with the emergence of a new woodland planted as part of the National Forest project. The scale of woodland creation is not typical of the established character of this particular landscape and is beginning to block views towards the settlement edge and the steeple of St Mary's Church in Rosliston (a key characteristic). Overall the character of the landscape in this view is assessed as Diverging.
