

Introduction to Museums

The aim of these sessions is to introduce children in Early Years and Key Stage 1 to museums. The resources will support the Early Years Foundation Stage Profile and the Key Stage 1 curriculum. The main historical focus is on changes in living memory, using the Wonders of the Peak gallery as an example of something that has changed and redesigned. The gallery has a timeline of objects and a time wall providing more detail. Together these can be used to discuss chronology. This approach provides opportunities for the children to investigate periods from prehistory through to almost the present day. This resource is designed to help children feel comfortable in museums and to explain what museums do and how they work. In terms of the curriculum the resource supports:

Key learning opportunities within the EYFS Profile	KS1		
Communication and language	History	Geography	
Personal social and emotional developmentLiteracy	 Changes within living memory. Where appropriate, these should be used to reveal aspects of change in national life. 	 To understand geographical similarities and differences through studying the human and physical geography of a small area of the United Kingdom. 	
• Maths	 Events beyond living memory that are significant nationally or globally. 	 To use basic geographical vocabulary to refer to: key physical features, including: beach, cliff, coast, forest, hill, mountain, 	
Expressive arts and designUnderstanding the World	 The lives of significant individuals in the past who have contributed to national and international achievements. Some should be used to compare aspects of life in different periods. 	sea, ocean, river, soil, valley, vegetation, season and weather To use vocabulary to refer to: key human features, including: city, town, village, factory, farm, house, office, port, harbour and shop.	
	 Significant historical events, people and places in their own locality. 	 To use aerial photographs and plan perspectives to recognise landmarks and basic human and physical features; devise a simple map; and use and construct basic symbols in a key. 	

EYFS/KS1

Session 1: Our Local Museum – Buxton's Memory Box

The children will learn about museums through Buxton Museum and Art Gallery's Wonders of the Peak gallery. They will use the gallery as inspiration to create their own 'pop up' museum of special objects at school. They will visit the museum so they can find out about what it is like to go to a museum. They will use their time there to get some good ideas for their own museum back at school.

Session 2: Becoming the Experts

The children will learn about the importance of the museum within their community by talking about their own memories of visits and discussing the wide variety of uses for the museum and gallery. They will take on the role of 'experts' within the museum and learn about the work of archaeologists, palaeontologists and museum designers.
