

Keeping safe
on the internet ↗

Resource designed by Annette Wood and Louise Rowe

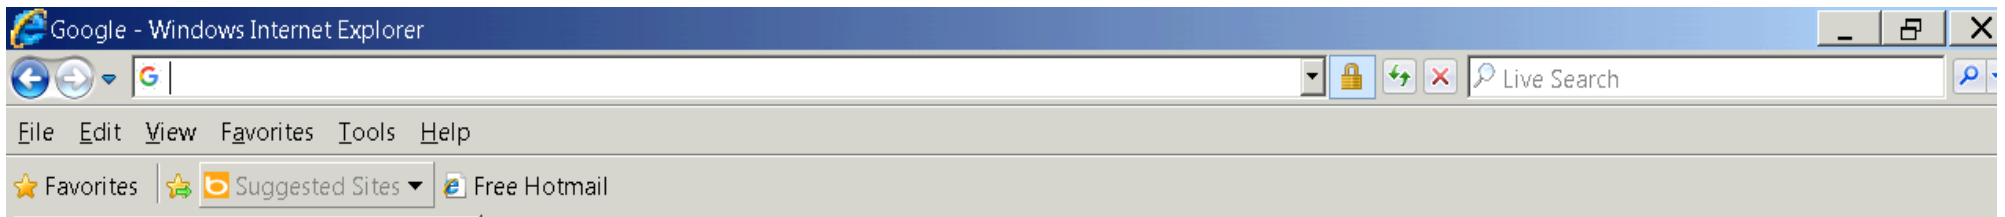

Using the internet you can... ↗

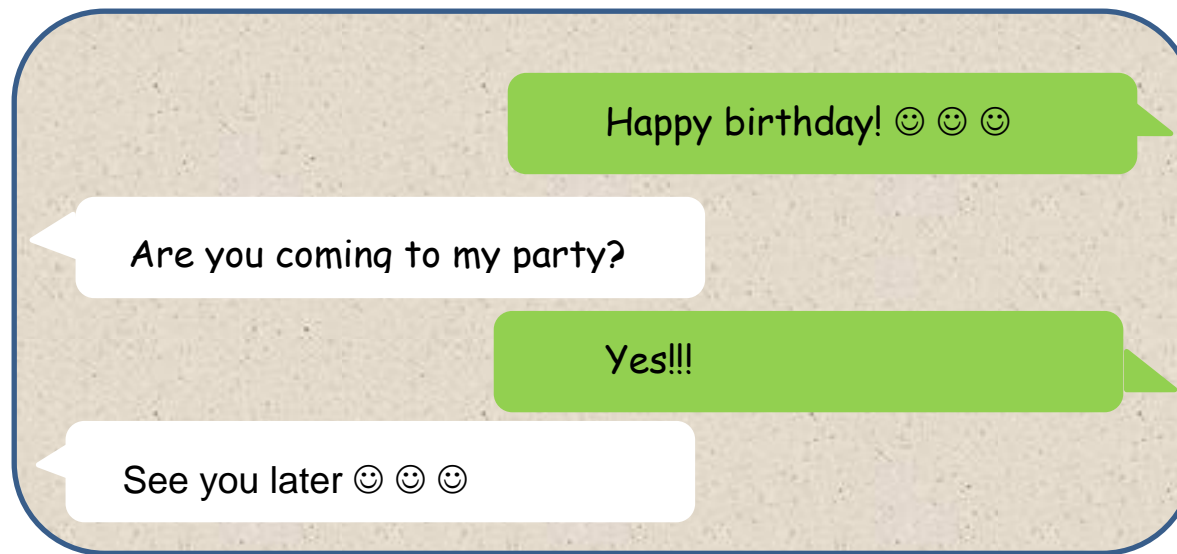

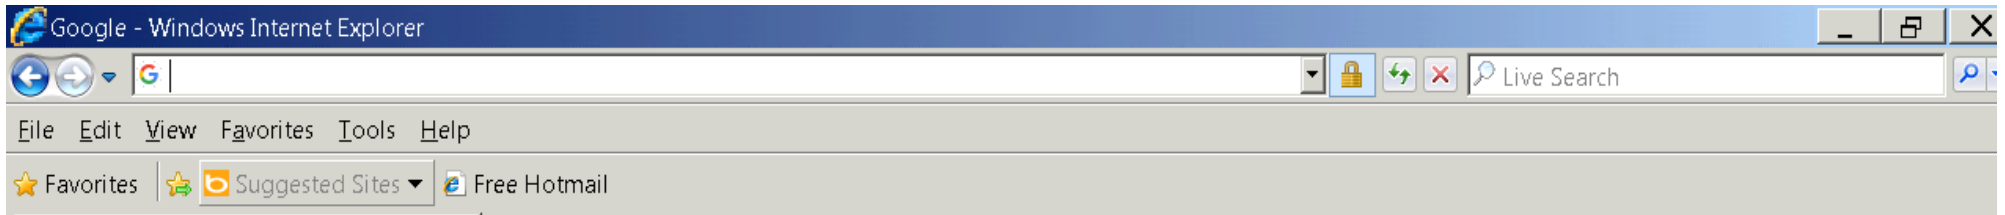

Google

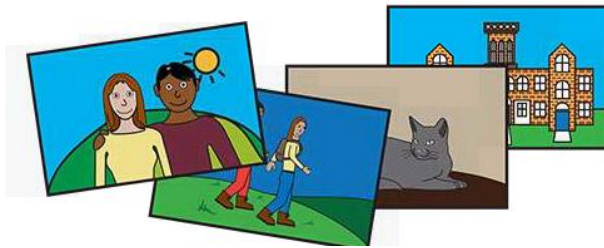

The internet and mobiles can help us keep in touch with our friends... ↗

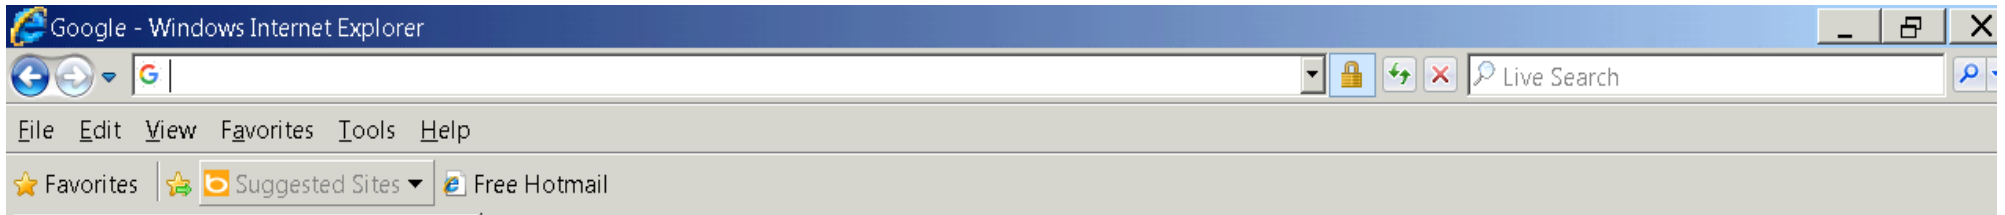

Sometimes we share things on the internet with our friends...

"I had new trainers for my birthday"

"We are having fish and chips for tea!😊😊😊"

"I had a good time at the cinema"

On Facebook, we might get a friend request from someone we don't know... ↗

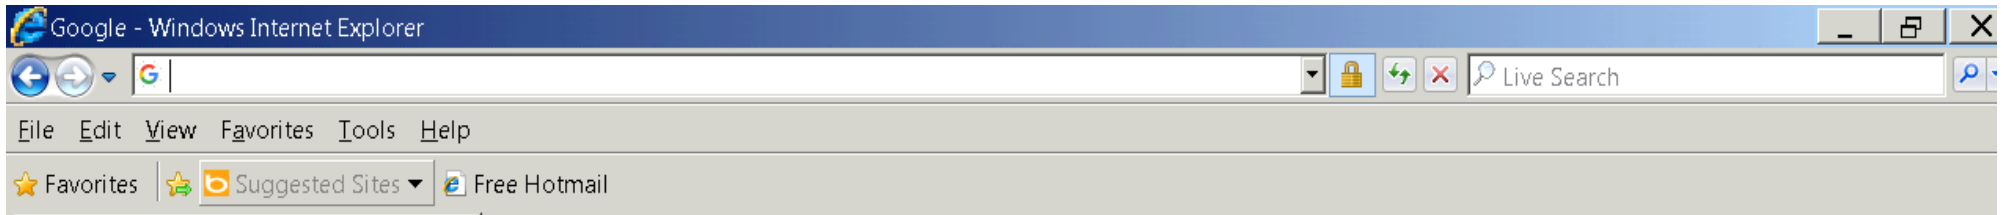

Friend Requests

 **Bethany Smith**

Hi, please add me as a friend 😊

Think...Do I want to be friends? I DO NOT KNOW THEM

Sometimes people are not who they say they are... ↗

Some people may ask you to share information about you... ↗

"Where do you live?"

"Can I have your phone number?"

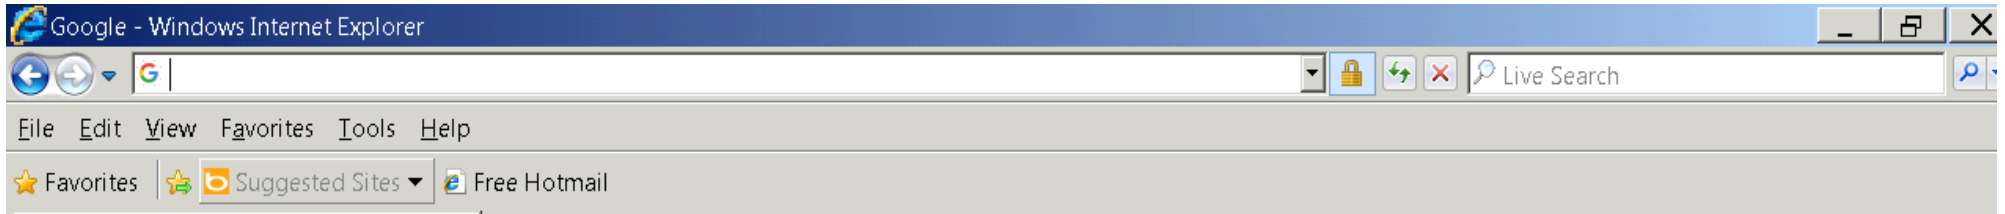

"Do you live on your own?"

Some people might ask you to send them photos of your body... 

"I would love to see a picture of you with no clothes on"

"Please send me a photo of you in your new underwear"

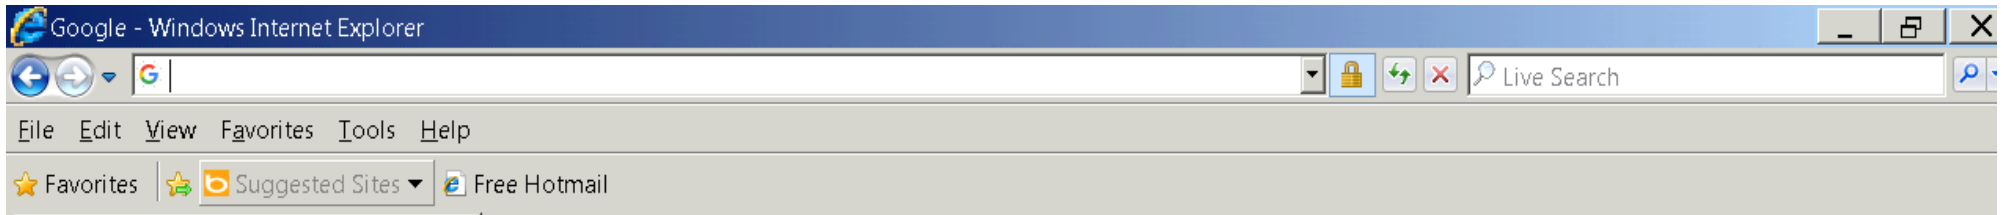

They may say things to get you to do what they want... 

"If you were my friend you would send me a photo 😞"

"I love you, please send me a photo ❤️ ❤️ ❤️"

"All my other friends send me photos"

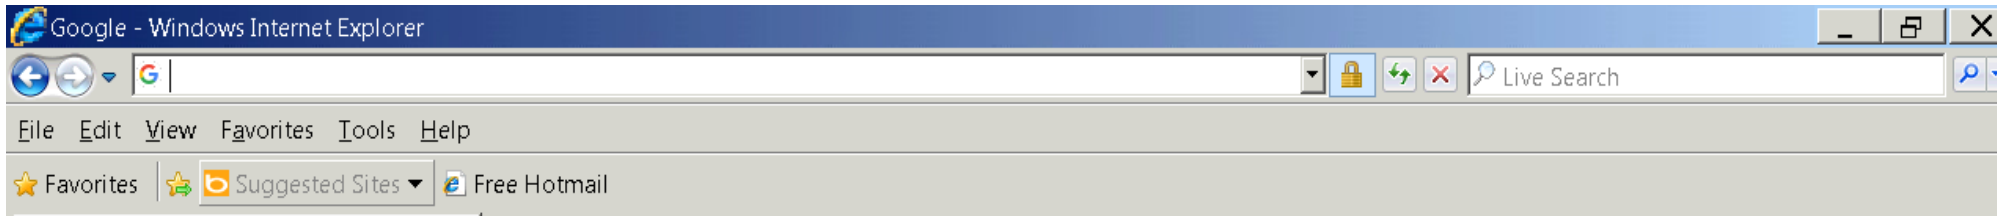

A real friend would not... 

Pretend to be someone else

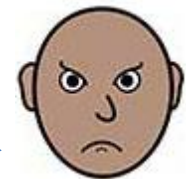

Ask you to send them pictures of your body

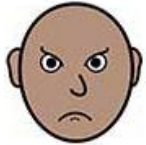

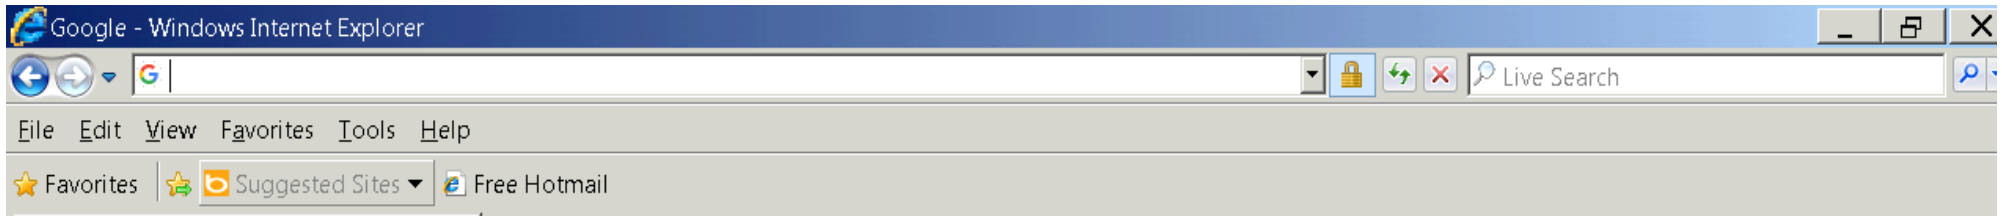

What happens when you send picture to someone?

"I've sent you a picture, I hope you like it 😊"

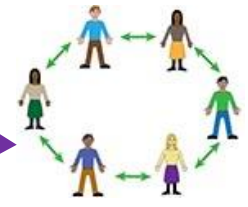

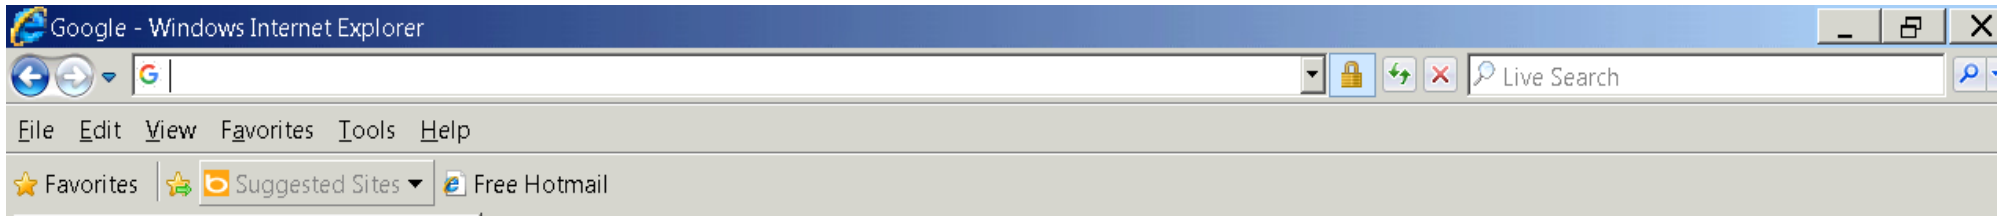

"Callum look at this picture"

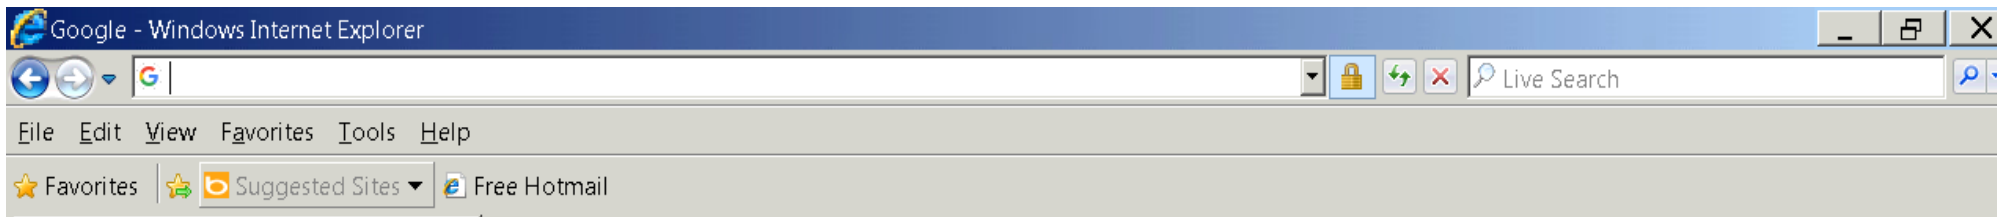

"I'm going to send it to all my friends to see"

Think! Would I send this  to my family, college or work?

The internet is good to keep in touch with friends and family who you know and trust.

Remember to always stop and think before you post or send anything on the internet.
